SMX

Article Description	tear-away backing		
Composition	ca. 55% PES 15% PVA 30%CV		
Color	white		
Make Up Available & Strength	roll ca. 200m x 90cm	- 35g/m ²	- 42g/m ²
		- 50g/m ²	
	roll ca. 100m x 90cm	- 80g/m ² (cut-away backing)	

Features

- SMX is a high-quality and all-round embroidery backing material.
- The weights of 35g, 42g and 50g are very easy to tear away in both directions.
- SMX is a stable tear-away backing, it can be framed "tight as a drum".
- Due to the viscose percentage, SMX is a very soft backing. At the same time, its stability avoids perforation of the backing during the embroidery process.

Processing recommendation

The 80g is tear able in both directions but due to the stability of this weight it is rather used as a cut away backing.

Recommendations for care

- Embroidery Backings/Toppings should be removed after the embroidering.

Once the backing is torn away, there will be almost no residue of the backing left. Therefore, the washing and ironing temperatures as well as the detergents should be determined according to the fabric embroidered.

Öko Tex

Disposal

- Left backing material can be disposed as household waste.
